

BASIC CONSIDERATIONS RELATING TO  
INADEQUATE SCOPE AND OTHER  
DEFICIENCIES OF DRAFT

- A. Basic Argument: Scope of BI is Unacceptable to Intelligence Community.

24 June 1976 Draft Does Not Contain  
Acceptable Provisions for Higher  
Scope for Access to SCI Under DCID 1/14  
Or for SBI for Access to SIOP-ESI, etc.  
See Tab "A"

SOLUTION: Amend Draft - See Tab "B"

- B. Five (5)-year BI for Position of Special Trust Would Not Adequately Protect Intelligence Community and Rest of Government.

1. Threat Not Sufficiently Considered by Community - Perhaps Committee Misled by Detente, etc.

(a) See 1973 Office of Security Study, which supports requirement for 15-year BI in CIA - See Tab "C"

(b) See copy of Colby interview regarding 400 non-attempts to recruit Americans abroad during past five (5) years by Soviets alone.  
See Tab "D"

(c) 24 June 1976 draft has other related weaknesses that circumvent necessity for five (5)-year BI for access to Secret and Top Secret
